Task distribution for assignment 4 Group-30-TA:

Name	Task/Responsibility
Suhaib	Implemented comprehensive code coverage for the Login page, addressing areas that lacked sufficient testing. Added additional unit and integration tests to cover previously untested code paths and provided explanations for the missing tests, outlining their impact and the steps taken to resolve them. Created the task distribution plan to allocate responsibilities among team members and defined clear deliverables with timelines to align with project milestones.
Dovydas	Implemented code coverage tooling to measure and track test coverage across the codebase. Refactored existing code and tests to improve maintainability, ensuring consistent and efficient test practices. Additionally, created comprehensive documentation to guide the use and interpretation of code coverage results.
Will	Established code coverage for the Lease Agreement page, enhancing testing measures to ensure all key functionalities are covered. Added new tests to address any gaps and achieve sufficient coverage, reinforcing the reliability and accuracy of this page.
