Task distribution for assignment 2 Group-30-TA:

Name	Task/Responsibility
Suhaib	Responsible for designing the front-end of the login page, incorporating design elements and implementing the necessary functions. Developed test scripts for the login page in JavaScript and ensured functionality aligned with project requirements. Assisted in debugging and created the readme and task distribution documentation.
Dovydas	Led the setup of the overall project framework, ensuring proper structuring and organizing the project files for enhanced readability and clarity. Designed the front-end of the rent payment page, integrating design elements and required functions. Created test scripts for the login page in JavaScript, validating the functions against project specifications. Assisted with debugging, organized the testing strategy, and developed the testing framework using Jest and JavaScript.
Will	Designed the front-end of the Lease Agreement page, incorporating essential design elements and necessary functionalities. Wrote test scripts for the Lease Agreement page in JavaScript, verifying that all functions operated according to the requirements. Provided debugging support as necessary.
